

Why should you come to this Careers Event?

The QEHS Careers Event is aimed at Years 7 to 11 in the hope that you will find it helpful in ensuring that you make the right choices for your futures. Your parents are also invited so that they can be made aware of the choices that are available to you; they can then advise you on the best decision to make for your life beyond QEHS.

The Event is part of a package of support to guide you in planning and making the best of choices for your future. As students, you are already supported by the Careers Adviser Mr Chris Lush and through Kudos careers education and guidance lessons.

This Careers Event enables you to meet with representatives from the local Colleges, post-16 Training Providers and numerous occupational areas – all under one roof. We couldn't have made it easier for you!

Some students may think that they have plenty of time to make decisions about what to do after QEHS. The years will pass very quickly and you will change your minds a number of times; this is why you are all invited as well as Year 11.

Some Year 11 students will feel that they have already made their minds up about what they would like to do. I strongly urge you to come to the Event to make sure that you are making the right decision and also to formulate a back-up plan, just in case you need a second option.

I have tried to get as many occupational area representatives as possible. But please come to see me if you need advice on specific areas that have not been covered by our visitors and if you were unable to speak to the Careers Adviser.

I would like to thank all of the representatives who have agreed so generously to attend the college to help you with your future plans.

I look forward to welcoming you all on Thursday evening. Please register as you arrive so that we know how many of you attended.

Mrs Kim Lane

Careers Officer
